== TO THE TRADE ==

In issuing this catalog, your attention is called to the following, namely:

Embossed Mouldings, pages 2 to 29, inclusive.

These goods are manufactured from first and second kiln dried lumber and, being carefully machined, are first-class in every respect. We carry all patterns in stock in red and white oak and birch as it runs for color. They can be made from any wood, and on orders of five hundred feet or more of a kind, in woods not more expensive than oak or birch, there is no extra charge. On smaller lots we must make a slight additional charge to cover cost that necessarily comes in running small quantities. If you want a moulding that is different in size and shape from any shown in our book, be sure to send a sample or sketch. Any part of any moulding can be changed in shape excepting the ornamented part. We will be glad to quote you special prices on mouldings made from more expensive woods. Name quantities wanted.

Picture Mouldings, Plate and Chair Rails. Page 30.

This class of goods is made in many different designs, and we can furnish anything required in this line.

Plain Mouldings. Page 31.

You will find only a few patterns shown here, but we are in position to manufacture plain mouldings of all kinds, for all purposes. In making these goods, only first and second kiln dried lumber is used, which, together with our superior workmanship, insures you the best and smoothest mouldings obtainable. Be sure to specify wood wanted.

Morris Chair and Divan Ornaments. Page 32.

These patterns, as can be seen, were gotten up along practical as well as artistic lines, and for use on Morris Chairs and Divans there is nothing so inexpensive and yet so beautiful. They can be used in several ways; for instance: "X" for Morris Chair leg, "Y" for the front of Divan or for Divan back, "Z" for Divan leg, etc., etc.

Couch Ornaments. Pages 33 to 35, inclusive.

These goods are used extensively on lounges and couches where bold but inexpensive ornamentation is desired. They are used in many combinations, and many beautiful effects can be obtained by different arrangements of them.

Embossed Carvings. Pages 36 to 43, inclusive.

These are not "Drop Carvings," but are made by an entirely different process, and are coming more into use every season. They are very effective in ornamenting furniture and millwork where a good imitation of hand carving is required. Made in all woods.

Spindle Carvings. Pages 44 to 52, inclusive.

These goods are carved by machine and are clean, nice work, and where genuine carved work is wanted, will "fill the bill" to a nicety.

Turned Mouldings and Turnings. Pages 53 to 62, inclusive.

Our line of these goods is very complete, and you will find them as good as the best and better than the average run of manufacture.

"Prompt shipments" are a matter of pride with us, and you will get your goods when we agree to deliver them, barring conditions which we cannot govern. Small shipments will be forwarded by express unless ordered to the contrary.

All prices are subject to change without notice.

On quantity lots of anything we manufacture, special net figures will be quoted on application if you will advise us as to the quantity and woods wanted.

Where order does not specify wood, oak will be shipped.

All prices quoted in this catalog are based on oak, birch as it runs for color, and woods not more expensive.

TERMS
